

## **Laptop Requirements International Media and Entertainment Management**

### **Processor:**

Dual Core 2.33 Ghz or better

### **Memory:**

2GB of RAM (we recommend 4 Gb if you are considering the production specialisation).

### **Internal Hard drive:**

250 Gb hard disk or better

### **Optical drive:**

DVD drive that allows you to burn DVD's required

### **Video Card:**

256 Mb of RAM Video Cards or better

### **Wireless Network Card:**

802.11a, 802.11b or 802.11g compliant wireless network card that support 128 bit encryption. This can be either an internal Mini PCI card or an External PCMCIA card

### **Operating System:**

Windows 7, minimum Windows XP (Preferably English) Apple Mac OSX 10.6 "Snow Leopard" or higher

### **Additional Software:**

The latest Internet Explorer or Firefox version.

### **Important Remark:**

The current Teaching and Exam Regulations (Dutch: OER) require students to have your own copies of any work submitted for grading (or partial grading) so it is recommended to purchase an external hard drive to serve this purpose. Laptops/ harddrive should connect via USB. In case you opt doing Production subjects you will definitely need Firewire.

### **Disclaimer/ Warning:**

The Macintosh is currently not yet supported by the ICT department and some software packages might not be available on the Macintosh or not compatible with versions used at the IMEM department.
